

FiDO plays ZAPPA

Live on the Dental Floss - DVD

FIDOpaysZAPPA are a swiss ten-piece-band coming from a wide background ranging from classical, jazz to rock. Each of the ten musicians brings essential abilities and ingredients to this project. Both of which are important to do justice to the huge variety within the repertoire of Frank Zappa.

From the mind-blowing high-speed-lines of «Inca Roads» to the funky grooves of «Zomby Woof», from the relaxed laid-back-feel of «Cosmic Debris» to the over-the-top humour of «Take Your Clothes Off When You Dance», FiDOpaysZAPPA - in the middle of the river Rhyne - perform an hour of Zappa classics as well as some rare gems.

This DVD lets you witness that special summer evening in 2007 when FpZ turned the «kulturfluss» into the «dental floss» and answered the omnipresent question «does humour belong in music?» with a loud and proud YES!
